eRx Consent

ePrescribing is a federally mandated initiative that requires all physicians to prescribe medications electronically beginning in 2011.

ePrescribing software sends your prescriptions over the internet to your pharmacy in a safe, secure way through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your physician see important information like drug interactions and your prescription history.

The benefit to you is:

- Less confusion over handwritten prescriptions or unclear phone calls.
- Reduced possibility of medical errors.
- Less chance of adverse drug reactions.
- Fewer trips to drop off at the pharmacy.
- A safer, faster, easier way to get your prescription filled.

Patient Consent:

I agree that Middle Georgia Medical Associates may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes.

Dear Patient:

It has come to our attention that there is confusion concerning annual preventive care visits and/or annual Medicare wellness visits that occur on the same day as a follow-up office visit. Follow-up visits can be for your chronic medical problems and/or new problems or concerns that have arisen since your last appointment here in our office.

- Your annual wellness visit, and/or preventive care visit includes: a review of your overall health and recommended screening procedures (such as mammograms, colonoscopies and certain lab tests) and preventive measures (such as vaccinations) that may be beneficial in maintaining overall good health.
- The office visit includes: review of new and/or acute problems or concerns and chronic medical conditions such as hypertension and diabetes.

If you have a new medical problem that needs evaluation and requires your physician to order specific tests and/or medications, this must be billed as a separate office visit. If you have chronic medical conditions that require supervision and surveillance and ordering of specific tests and medications, this is not included in the wellness visit and must be billed as a separate office visit. **As a benefit to you, we offer you the option to have both of these visits done on the same day.** This will prevent you from having to schedule separate exams on separate days.

You can choose to do them on separate visits if you prefer. If you have a health concern, please inform your physician. They will let you know if it will be better to be addressed on the same day as the preventive visit.

If you have any questions concerning this, please ask to speak to the billing staff or the office manager.

I acknowledge receipt of and understanding of this policy.
